DISASTER PREPAREDNESS SUPPLIES

EMERGENCY KITS • FIRST AID • LOCKDOWN & SHELTER SUPPLIES • OUTDOOR SURVIVAL

FOOD & WATER • LIGHTING • FIRST RESPONDERS • HYGIENE & SANITATION • CUSTOM SOLUTIONS
Disasters can happen any time, anywhere. They can be natural or manmade, so it’s vital to be prepared. Earthquakes, hurricanes, tornados, fires and floods can cause widespread destruction. The 9/11 tragedy also opened our eyes to the reality that we face the threat of terrorist attacks.

The first 72-hour period after an emergency is the most critical. First-responders may not be able to reach you within that time frame, so to ensure your survival have 3-day Emergency Kits on hand. They contain the three basic lifesaving essentials - food, water and a blanket - as recommended by the American Red Cross.

The food and water in these Emergency Kits have a 5-year shelf life. It is recommended to keep one in each location where you spend 4 hours or more on a regular basis - your home, office, car, or even at school. Don’t be caught unprepared in a disaster. Your survival and that of your loved ones could depend on it!

### The Survival Box

An Emergency Cabinet is a great solution for storing and maintaining the supplies you will need in the event of an unexpected disaster situation.

Because every business has different needs, we provide customized solutions to ensure optimum safety of your workplace.

- Easy access to critical supplies
- Locks with breakable emergency key box
- We manage and restock your cabinets
- Arrange for a cabinet in each building for maximum preparedness

Call for a quote: 1.800.959.4053
We take into consideration the type and size of your business, as well as your location, when we build and outfit your Emergency Cabinets containers, or Trailers (ARKs or ERTs), stocking them with a carefully-chosen inventory of preparedness supplies for any potential emergency situation.

We create a easy-to-deploy container and mobile trailers that house all your supplies and even becomes your Mobile Command Center in an emergency.

We can also manage your inventory, regularly restocking and updating your supplies for maximum readiness.

- **High Capacity**
- **Easy Transport**
- **Community Resilience**
- **Cost Effective**
- **Internationally Utilized**

A reliable and safe drinking water supply is central to public health and disease prevention following an emergency or natural disaster. Yet, often times technologies are poorly matched to the resources available.

The DIVVY Emergency Water System is designed for use in low resource situations when access to power, fuel and technical expertise is compromised. Fully operational and able to dispense safe drinking water within 90 minutes of set up—the DIVVY is an indispensable resource for both community preparedness and disaster response.

- Delivers up to 250 Gallons per hour and up to 2,500 daily
- Expandable to 6,000 per day
- Designed for easy transport for rapid emergency or disaster response
- Fits in 3 small containers to fit in car, plane, or boat
- Easy setup to be dispensing potable water in 20 minutes by one person
- Requires no fuel, electricity, power or tools
- Less than 5 cents per gallon to provide clean drinking water
- Used in the United States and internationally by Municipal Governments, Universities, Hospitals, National Guard, NGOs
